

1 .Electromechanical design works

- a. Design of pipeline networks for East Port Said Port (East Port Said).
- b. Design of lifting pump stations, East Port Said Port (East Port Said).
- c. Design of cooling system networks at Sinai Manganese Company in Abu Zenima, South Sinai.
- d. Design of cooling pumps at Sinai Manganese Company in Abu Zenima, South Sinai.
- e. Design of cooling system networks including pumps, cold and hot water tanks and refrigeration exchangers at Saint-Gobain Suez Company.
- f. Raising the efficiency of the cooling system at the National Cement Company in Cairo.
- g. Design of water networks at Amreya Petroleum Refining Company in Alexandria.
- h. Design of water networks in the petroleum pipelines depot in Tebbeen.
- i. Design of water networks in the oil pipeline depot in Tanta.
- j. Design of water networks in the petroleum pipelines depot in Benha.
- k. Design of water networks in the petroleum pipelines depot in Damanhour.
- l. Design of water networks in the oil pipelines warehouse in Kafr El-Zayat.
